Mobile: +91-9044348891

SKILLS

- **Languages:** C++ (Major), Java, C, JavaScript, PHP, HTML, CSS
- **Frameworks:** MERN Stack (MongoDB, Express.js, React.js, Node.js), PostgreSQL, Bootstrap, jQuery
- **Tools/Platforms:** Git, VS Code, MySQL Workbench, Postman, Figma
- **Core Fundamentals:** Data Structures and Algorithms, Object-Oriented Programming, DBMS, SQL

PROJECTS

- **Career Verse – AI-Powered Job Portal** Aug 2025– Dec 2025
 - Built a full-stack job portal integrating **AI-driven resume screening**, skill-gap analysis, and personalized career counseling.
 - Implemented secure **JWT** and **Firebase Google Authentication** on the React frontend and **FastAPI** backend.
 - Enhanced AI modules using **Google Gemini** to extract skills, match candidates with jobs, and recommend free online courses dynamically based on missing skills.
 - Enabled employers to post jobs, view **AI-generated** candidate insights, and manage applications through a responsive, modern UI.**Tech Stack:** React.js, FastAPI, Firebase Auth, Google Generative AI (Gemini), MongoDB / MySQL, JavaScript
- **Mini Twitter Offline – Feed Algorithm Simulation | [GitHub](#)** June 2025– July 2025
 - Developed an offline simulation of a social media-style news feed using **C++**, focusing on efficient ranking and retrieval of posts.
 - Implemented feed generation logic using **Min-Heap / Max-Heap** and **HashMap** to prioritize posts based on timestamps and relevance.
 - Optimized the algorithm to achieve fast feed updates and near-instant post retrieval.
 - Demonstrates strong understanding of **DSA**, system design fundamentals, and performance optimization.**Tech Stack:** HTML, CSS, JavaScript, PHP, Tailwind CSS
- **Real-Time Process Monitoring Dashboard | [GitHub](#)** May 2025
 - Created an analytics dashboard with **live monitoring of CPU, memory, and process activity** using Python's psutil and Flask.
 - Integrated **search, filtering, and sorting of processes** along with a **Kill Process** action using PID-level system calls.
 - Improved real-time visualizations using **Chart.js**, featuring dynamic CPU usage charts and auto-refreshing process data tables.
 - Demonstrates strong OS-level understanding of process, system calls, and real-time data visualization.**Tech Stack:** Python, Flask, psutil, HTML, CSS, JavaScript, Chart.js

TRAINING

- **Logic Building, Programming and Data Structures and Algorithms** June 2025-July 2025
 - Completed intensive training in **Data Structures and Algorithms (DSA)** with implementation in C++.
 - Strengthened core concepts including **Arrays, Linked Lists, Stacks, Queues, Trees, Graphs, HashMaps, Heaps, Recursion, Sorting, and Time Complexity (Big-O)**.
 - Built **Mini Twitter (Offline) – a News Feed Algorithm** project using **Heap and HashMap** for efficient post ranking and retrieval.
 - Optimized feed generation logic using **priority queues (Max-Heap)** and **hash-based indexing** for fast lookups and improved performance.

CERTIFICATIONS

- Computational Theory: Language Principle & Finite Automata Theory – [Skillsoft](#) Aug 2025
- Introduction to Hardware and Operating Systems – [IBM](#) Sep 2024
- The Bits and Bytes of Computer Networking – [Google](#) Sep 2024
- Fundamentals of Network Communication - [University of Colorado System](#) Sep 2024

ACHIEVEMENTS

- **Shortlisted Finalist – IBM Expert Lab National Hackathon** Aug 2025
Shortlisted among top teams to compete live at the IBM Experts Lab National Hackathon (Bengaluru) and ranked among Top 10 in Python-based solutions.
- **Contributor – GirlScript Summer of Code (GSSOC) 2024** June 2024
Contributed to open-source repositories in web and backend development as part of national coding program.
- **Solved 200+ LeetCode Problems (1600+ rating) - Online:**
Demonstrated strong DSA and algorithmic skills through consistent solving of easy-medium-hard problems.
- **Summer Training by Centre of Professional Enhancement - LPU:** July 2025
Secured Outstanding Grade (O) in Summer Training program on Logic Building, Programming and Data Structures by centre of professional enhancement at LPU.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology – Computer Science and Engineering; **CGPA: 7.8** Aug 2023 – Present
- **Jeewan Public School** Motihari, Bihar
Intermediate; **Percentage: 74.8** Apr 2021 – Mar 2022
- **St. Joseph Higher Secondary School** Bettiah, Bihar
Matriculation; **Percentage: 86.6** Apr 2019 – Mar 2020
